REMARKS

~~RETURN TO CIA LIBRARY~~

3 October 1949

25X1 1. The JUETENBOG-ALTES LAGER (N 52/E 69) airfield was occupied by IL-10s. A radio station with about 40-foot radio mast, two closed trucks and a covered set, presumably a searchlight, was located about 660 feet west of the railroad line to TREUENBRIETZEN (N 52/Z 50), 1,650 feet south of the ALTES LAGER railroad station.

2. Eight single-engine aircraft without wings were parked in a row in front of the eastern hangars of the field.  
Description:

Low-wing monoplane (wing roots were seen, in-line engine, fuselage section forward of wing roots about one-third of total length).

10 October 1949

3. The mentioned aircraft, but with attached wings (straight leading edge, slanting trailing edge, rounded wing tips), were parked at the field.

25X1

Two more groups of eight planes each of the same type were parked nearby.

Comment:

a. The occupation of the field is known from a previous report +. It is assumed that one ground attack regiment stationed there had come from DRESDEN-KLOTZSCHE. Another ground attack regiment previously stationed in GRODENECK is possibly also in JUETENBOG.

25X1

b.  the aircraft whose wings had to be mounted in JUETENBOG it is concluded that the planes arrived by train. This report does not indicate the exact number and kind of aircraft parked at the field.
